

Section 401 Water Quality Certification Public Notices

The Central Coast Water Board is currently reviewing applications for the following project for certification under Section 401 of the Clean Water Act. We encourage public comments on the proposed work, which will be considered in the decision. You may submit comments in writing on any of these projects to:

Central Coast Regional Water Quality Control Board
895 Aerovista Place, Suite 101
San Luis Obispo, CA 93401
Attention: 401 Coordinator

Project Applicant	Jeff Salt – Goleta Sanitary District
Applicant's Agent	Dave Rundle – Penfield & Smith
Project Name	Goleta Sanitary District Creek Crossing Repair
Receiving Water	Cieneguitas Creek, Las Vegas Creek
City/County	Various locations/ Santa Barbara
Public Notice	12/12/08 to January 1, 2009
Project Description	<p>The purpose of this project is to protect exposed sewer lines located in various creek crossings in Santa Barbara County.</p> <p>The project activities include: repairing a total of five sites. Four sites involve the installation of 45 cubic yards of rock rip-rap at two points adjacent to each exposed sewer line; one immediately downstream of the pipe, and another approximately 20 feet downstream for energy dissipation. At the fifth site, a landslide has moved a mass of soil between the pipe and the creek. The sewer line will need to be uncovered to assure that it is not damaged and the soil around the pipe will be backfilled and rock rip-rap will be installed to stabilize the bank.</p> <p>No mitigations were proposed for this project</p> <p>A Categorical Exemption is currently under review for this project.</p>
